

Mouse IL-7 Antibody

Polyclonal Goat IgG Catalog Number: AB-407-NA

DESCRIPTION			
Species Reactivity	Mouse		
Specificity	Detects mouse IL-7 in direct ELISAs and Western blots. In direct ELISAs, approximately 5% cross-reactivity with recombinant human IL-7 in observed.		
Source	Polyclonal Goat IgG		
Purification	Protein A or G purified		
Immunogen	E. coli-derived recombinant mouse IL-7 (R&D Systems, Catalog # 407-ML) Glu26-lle154 Accession # Q544C8		
Endotoxin Level	<0.10 EU per 1 µg of the antibody by the LAL method.		
Formulation	Lyophilized from a 0.2 µm filtered solution in PBS with Trehalose. See Certificate of Analysis for details.		

APPLICATIONS

DATA

Please Note: Optimal dilutions should be determined by each laboratory for each application. General Protocols are available in the Technical Information section on our website.

	Recommended Concentration	Sample
Western Blot	1 μg/mL	Recombinant Mouse IL-7 (Catalog # 407-ML)
Neutralization	Measured by its ability to neutralize IL-7-induced proliferation in PHA-activated human peripheral blood mononuclear cells (PBMC). Yokota, T. <i>et al.</i> (1986) Proc. Natl. Acad. Sci. USA 83 :5894. The Neutralization Dose (ND ₅₀) is typically 0.5-1.5 µg/mL in the presence of 1.5 ng/mL Recombinant Mouse IL-7.	

Neutralization Mouse IL-7 Antibody (µg/mL) 10-1 4200 4000 3800 3800 Mean RFU 3600 ₹ 3600 3400 3400 3200 3200 3000 3000 2800 2800 Recombinant Mouse IL-7 (ng/mL)

Cell Proliferation Induced by IL-7 and Neutralization by Mouse IL-7 Antibody. Recombinant Mouse IL-7 (Catalog # 407-ML) stimulates proliferation in PHA-activated human peripheral blood mononuclear cells (PBMC) in a dose-dependent manner (orange line). Proliferation elicited by Recombinant Mouse IL-7 (1.5 ng/mL) is neutralized (green line) by increasing concentrations of Mouse IL-7 Polyclonal Antibody (Catalog # AB-407-NA). The ND₅₀ is typically 0.5-1.5 µg/mL

PREPARATION AND STORAGE

 Reconstitution
 Reconstitute at 1 mg/mL in sterile PBS.

 Shipping
 The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

Stability & Storage

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

- 12 months from date of receipt, -20 to -70 °C as supplied.
- 1 month, 2 to 8 °C under sterile conditions after reconstitution.
- 6 months, -20 to -70 °C under sterile conditions after reconstitution.

BACKGROUND

IL-7, previously known as pre-B cell growth factor and lymphopoietin-1, was originally purified on the basis of its ability to promote the proliferation of precursor B cells. It has now been shown that IL-7 can also stimulate the proliferation of thymocytes, T cell progenitors and mature CD4 * and CD8* T cells. IL-7 can induce the formation of lymphokine-activated killer (LAK) cells as well as the development of cytotoxic T lymphocytes (CTL). IL-7 was also shown to induce the V(D)J rearrangement of the T cell receptor β gene in mouse fetal thymocytes. Among myeloid lineage cells, IL-7 can up-regulate the production of pro-inflammatory cytokines and stimulate the tumorocidal activity of monocytes/macrophages. IL-7 is expressed by adherent stromal cells from various tissues.

Mouse IL-7 cDNA encodes a precursor protein of 154 amino residues containing a 25 amino acid residue signal peptide. Human IL-7 has approximately 65% amino acid sequence identity with mouse IL-7 and both proteins exhibit cross-species activity.

IL-7 bioactivities are mediated by the binding of IL-7 to functional high-affinity receptor complexes. The ligand binding subunit (IL-7 R) of the IL-7 receptor complex has been cloned from human and mouse sources. In addition to the membrane-anchored form of the IL-7 receptor, a human cDNA clone that encodes a soluble form of the IL-7 R has also been isolated. The γ chain of the IL-2 receptor complex has been shown to be an essential component for IL-7 signal transduction. Both IL-7 R and IL-2 Rγ are members of the hematopoietin receptor superfamily. Cells known to express IL-7 receptors include pre-B cells, T cells, and bone marrow cells.
