

DESCRIPTION

Specificity	Serum was obtained from naive (non-immunized) rabbits and purified for use as normal rabbit IgG.
Source	Polyclonal Rabbit IgG
Purification	Protein A or G purified
Immunogen	NA
Formulation	Lyophilized from a 0.2 µm filtered solution in PBS with Trehalose. See Certificate of Analysis for details.

APPLICATIONS

Please Note: Optimal dilutions should be determined by each laboratory for each application. *General Protocols* are available in the *Technical Information* section on our website.

Negative control for use in conjunction with R&D Systems antibodies. Use at the same concentration as the detection antibody.

DATA

PREPARATION AND STORAGE

Reconstitution	Dissolve the lyophilized rabbit IgG in sterile PBS, pH 7.4. If 1 mL of PBS is used, the antibody concentration will be 1 mg/mL.
Shipping	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.
Stability & Storage	<p>Use a manual defrost freezer and avoid repeated freeze-thaw cycles.</p> <ul style="list-style-type: none"> ● 12 months from date of receipt, -20 to -70 °C as supplied. ● 1 month, 2 to 8 °C under sterile conditions after reconstitution. ● 6 months, -20 to -70 °C under sterile conditions after reconstitution.
