

#### DESCRIPTION

<b>Species Reactivity</b>	Human
<b>Specificity</b>	Detects endogenous human SOX18 in Western blots.
<b>Source</b>	Polyclonal Sheep IgG
<b>Purification</b>	Antigen Affinity-purified
<b>Immunogen</b>	<i>E. coli</i> -derived recombinant human SOX18 Ala276-Gly384 Accession # P35713
<b>Formulation</b>	Lyophilized from a 0.2 µm filtered solution in PBS with Trehalose. See Certificate of Analysis for details. *Small pack size (-SP) is supplied as a 0.2 µm filtered solution in PBS.

#### APPLICATIONS

**Please Note:** Optimal dilutions should be determined by each laboratory for each application. *General Protocols* are available in the *Technical Information* section on our website.

	<b>Recommended Concentration</b>	<b>Sample</b>
<b>Western Blot</b>	1 µg/mL	See Below

#### DATA

#### PREPARATION AND STORAGE

<b>Reconstitution</b>	Reconstitute at 0.2 mg/mL in sterile PBS.
<b>Shipping</b>	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below. *Small pack size (-SP) is shipped with polar packs. Upon receipt, store it immediately at -20 to -70 °C
<b>Stability &amp; Storage</b>	<b>Use a manual defrost freezer and avoid repeated freeze-thaw cycles.</b> <ul style="list-style-type: none"> <li>● 12 months from date of receipt, -20 to -70 °C as supplied.</li> <li>● 1 month, 2 to 8 °C under sterile conditions after reconstitution.</li> <li>● 6 months, -20 to -70 °C under sterile conditions after reconstitution.</li> </ul>

#### BACKGROUND

SOX18 (SRY-related HMG box) is a 41 kDa (predicted) Group F member of the SOX family of DNA-binding proteins. Human SOX18 is 384 amino acids (aa) in length and contains an N-terminal DNA-binding HMG box (aa 85-153), a central TAD region (aa 168-260) and a highly charged sequence that contains a nine aa transactivation motif (aa 323-331). SOX18 is expressed by endothelium and vascular smooth muscle, and apparently promotes the formation and organization of new capillaries. Over aa 276-384, human SOX18 shares 90% and 89% aa identity with mouse and porcine SOX18, respectively.
