

# Human SIRP beta 1/gamma Biotinylated Antibody

Antigen Affinity-purified Polyclonal Goat IgG  
Catalog Number: BAF2096

## DESCRIPTION

<b>Species Reactivity</b>	Human
<b>Specificity</b>	Detects human SIRP beta 1 and human SIRP gamma in direct ELISAs and Western blots.
<b>Source</b>	Polyclonal Goat IgG
<b>Purification</b>	Antigen Affinity-purified
<b>Immunogen</b>	Mouse myeloma cell line NS0-derived recombinant human SIRP beta 1 Gly26-Ala369 (Arg53His and Ala363Pro) Accession # O00241
<b>Formulation</b>	Lyophilized from a 0.2 µm filtered solution in PBS with BSA as a carrier protein. See Certificate of Analysis for details.

## APPLICATIONS

**Please Note:** Optimal dilutions should be determined by each laboratory for each application. [General Protocols](#) are available in the Technical Information section on our website.

	<b>Recommended Concentration</b>	<b>Sample</b>
<b>Western Blot</b>	0.1 µg/mL	Recombinant Human SIRP beta 1 and Recombinant Human SIRP gamma

## PREPARATION AND STORAGE

<b>Reconstitution</b>	Reconstitute at 0.2 mg/mL in sterile PBS.
<b>Shipping</b>	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.
<b>Stability &amp; Storage</b>	<b>Use a manual defrost freezer and avoid repeated freeze-thaw cycles.</b> <ul style="list-style-type: none"> <li>• 12 months from date of receipt, -20 to -70 °C as supplied.</li> <li>• 1 month, 2 to 8 °C under sterile conditions after reconstitution.</li> <li>• 6 months, -20 to -70 °C under sterile conditions after reconstitution.</li> </ul>

## BACKGROUND

SIRPβ1 is a type I transmembrane protein belonging to the SIRP family within the Ig superfamily. Members of this family are characterized by an extracellular region containing a V-set Ig domain containing a J-like sequence and two C1-set Ig domains. Unlike SIRPα that has cytoplasmic ITIM domains, SIRPβ1 possesses positively charged residues that allow association with ITAM motif containing adaptor molecules. SIRPβ1 is expressed on cells of monocyte, macrophage or dendritic lineages.
