

Human Integrin α4β7/LPAM-1 (Research Grade Vedolizumab Biosimilar) Alexa Fluor® 700-conjugated Antibody

Recombinant Monoclonal Human IgG₁ Clone # Hu117 Catalog Number: FAB10078N

DESCRIPTION			
Species Reactivity	Human		
Specificity	Detects human Integrin α4β7/LPAM-1 in direct ELISAs. This non-therapeutic antibody uses the same variable region sequence as the therapeutic antibody Vedolizumab. This product is for research use only.		
Source	Recombinant Monoclonal Human IgG ₁ Clone # Hu117		
Purification	Protein A or G purified from cell culture supernatant		
Immunogen	Human Integrin α4β7/LPAM-1		
Conjugate	Alexa Fluor 700 Excitation Wavelength: 675-700 nm Emission Wavelength: 723 nm		
Formulation	Supplied 0.2 mg/mL in a saline solution containing BSA and Sodium Azide. See Certificate of Analysis for details.		
	*Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Shee		

Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Sheet (SDS) for additional information and handling instructions.

APPLICATIONS			
Please Note: Optimal dilutions should be determined by each laboratory for each application. General Protocols are available in the Technical Information section on our website.			
	Recommended Concentration	Sample	
Flow Cytometry	0.25-1 μg/10 ⁶ cells	Human PBMC	

DATA Flow Cytometry	Detection of Integrin alpha 4 beta 7/LPAM-1 in Human PBMC by Flow Cytometry. Human PBMC were stained with (A) Human Anti-Human Integrin alpha 4 beta 7/LPAM-1 (Research Grade Vedolizumab Biosimilar)
	Alexa Fluor® 700-conjugated Monoclonal Antibody (Catalog # FAB-10078N) or (B) no primary antibody, followed by Mouse anti- Human CD3 PE-conjugated Monoclonal Antibody (Catalog # FAB-100P). View our protocol for Staining Membrane-associated Proteins.
PREPARATION AND S	TORAGE
Shipping	The product is shipped with polar packs. Upon receipt, store it immediately at the temperature recommended below.
Stability & Storage	Protect from light. Do not freeze.
	 12 months from date of receipt, 2 to 8 °C as supplied.

BACKGROUND

Vedolizumab is a biosimilar that binds and blocks binds to integrin α4β7. This product can be used in flow cytometry or various assay formats to block or measure integrin α4β7.

PRODUCT SPECIFIC NOTICES

This product is provided under an agreement between Life Technologies Corporation and R&D Systems, Inc, and the manufacture, use, sale or import of this product is subject to one or more US patents and corresponding non-US equivalents, owned by Life Technologies Corporation and its affiliates. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components (1) in manufacturing; (2) to provide a service, information, or data to an unaffiliated third party for payment; (3) for therapeutic, diagnostic or prophylactic purposes; (4) to resell, sell, or otherwise transfer this product or its components to any third party, or for any other commercial purpose. Life Technologies Corporation will not assert a claim against the buyer of the infringement of the above patents based on the manufacture, use or sale of a commercial product developed in research by the buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Life Technologies Corporation, Cell Analysis Business Unit, Business Development, 29851 Willow Creek Road, Eugene, OR 97402, Tel: (541) 465-8300. Fax: (541) 335-0354.
