Human S1P₄/EDG-6

Alexa Fluor® 488-conjugated Antibody

Monoclonal Mouse IgG_{2B} Clone # 1012512 Catalog Number: FAB10321G

100 µg

DESCRIPTION **Species Reactivity** Human Detects human S1P₄/EDG-6 transfectants but not the parental cell line in Flow Cytometry. Specificity Source Monoclonal Mouse IgG_{2B} Clone # 1012512 Purification Protein A or G purified from hybridoma culture supernatant NS0 mouse myeloma cell line transfected with human S1P₄/EDG-6 Immunogen Met1-IIe384 Accession # O95977 Conjugate Alexa Fluor 488 Excitation Wavelength: 488 nm Emission Wavelength: 515-545 nm Formulation Supplied 0.2 mg/mL in a saline solution containing BSA and Sodium Azide.

*Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Sheet (SDS) for additional information and handling instructions.

| Shipping | The product is shipped with polar packs. Upon receipt, store it immediately at the temperature recommended below. | |
| Stability & Storage | Protect from light. Do not freeze. | |
| | 12 months from date of receipt, 2 to 8 °C as supplied. | |

BACKGROUND

EDG-6 belongs to the G protein-coupled receptor 1 family. It is specifically expressed in fetal and adult lymphoid and hematopoietic tissue as well as in lung. EDG-6 is a receptor for the lysosphingolipid sphingosine 1- phosphate (S1P), a bioactive lysophospholipid that elicits diverse physiological effect on most types of cells and tissues. EDG-6 may be involved in cell migration processes that are specific for lymphocytes.

PRODUCT SPECIFIC NOTICES

This product is provided under an agreement between Life Technologies Corporation and R&D Systems, Inc, and the manufacture, use, sale or import of this product is subject to one or more US patents and corresponding non-US equivalents, owned by Life Technologies Corporation and its affiliates. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components (1) in manufacturing; (2) to provide a service, information, or data to an unaffiliated third party for payment; (3) for therapeutic, diagnostic or prophylactic purposes; (4) to resell, sell, or otherwise transfer this product or its components to any third party, or for any other commercial purpose. Life Technologies Corporation will not assert a claim against the buyer of the infringement of the above patents based on the manufacture, use or sale of a commercial product developed in research by the buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Life Technologies Corporation, Cell Analysis Business Unit, Business Development, 29851 Willow Creek Road, Eugene, OR 97402, Tel: (541) 465-8300. Fax: (541) 335-0354.
