

DESCRIPTION						
Species Reactivity	y Human					
Specificity	Detects human GPR83 in direct ELISAs					
Source	Monoclonal Mouse IgG ₁ Clone # 566133					
Purification	Protein A or G purified from cell culture supernatant					
Immunogen	NS0 mouse myeloma cell line transfected with human GPR83 Accession # Q9NYM4					
Conjugate	Alexa Fluor 350 Excitation Wavelength: 346 nm Emission Wavelength: 442 nm					
Formulation	Supplied 0.2 mg/mL in a saline solution containing BSA and Sodium Azide					
	*Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Sheet (SDS) for additional information and handling instructions.

Flow Cytometry	Titration recommended for optimal concentration with starting range of 0.1-1 µg/1 million cells. Sample used for thi			
	experiment was HEK293 Human Cell Line Transfected with Human GPR83 and eGFP			
PREPARATION A	ND STORAGE			

Shipping	The product is shipped with polar packs. Upon receipt, store it immediately at the temperature recommended below.			
Stability & Storage	age Protect from light. Do not freeze.			
	 12 months from date of receipt, 2 to 8 °C as supplied. 			

BACKGROUND

APP

GPR83 is an orphan G protein-coupled receptor most homologous to the tachykinin and neuropeptide Y receptors. GPR83 is involved in the conversion of naive CD4+CD25- T-cells into CD4+Foxp3+ Treg cells during inflammatory immune responses in vivo.

PRODUCT SPECIFIC NOTICES

This product is provided under an agreement between Life Technologies Corporation and R&D Systems, Inc, and the manufacture, use, sale or import of this product is subject to one or more US patents and corresponding non-US equivalents, owned by Life Technologies Corporation and its affiliates. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components (1) in manufacturing; (2) to provide a service, information, or data to an unaffiliated third party for payment; (3) for therapeutic, diagnostic or prophylactic purposes; (4) to resell, sell, or otherwise transfer this product or its components to any third party, or for any other commercial purpose. Life Technologies Corporation will not assert a claim against the buyer of the infringement of the above patents based on the manufacture, use or sale of a commercial product developed in research by the buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Life Technologies Corporation, Cell Analysis Business Unit, Business Development, 29851 Willow Creek Road, Eugene, OR 97402, Tel: (541) 465-8300. Fax: (541) 335-0354.
