

Human CD11b/Integrin alpha M Alexa Fluor® 750-conjugated Antibody

Monoclonal Mouse IgG_{2B} Clone # 238446

Catalog Number: FAB16991S

100 µg

| DESCRIPTION | | | |
|--------------------|---|--|--|
| Species Reactivity | Human | | |
| Specificity | Detects human Integrin αM/CD11b in direct ELISAs. | | |
| Source | Monoclonal Mouse IgG _{2B} Clone # 238446 | | |
| Purification | Protein A or G purified from hybridoma culture supernatant | | |
| Immunogen | Mouse myeloma cell line NS0-derived recombinant human Integrin αM/CD11b Phe17-Asn1105 Accession # NP_001139280 | | |
| Conjugate | Alexa Fluor 750 Excitation Wavelength: 749 nm Emission Wavelength: 775 nm | | |
| Formulation | Supplied 0.2 mg/mL in a saline solution containing BSA and Sodium Azide. See Certificate of Analysis for details. | | |
| | *Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Sheet (SDS) for additional information and handling instructions. | | |

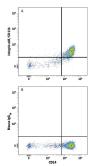

APPLICATIONS

Please Note: Optimal dilutions should be determined by each laboratory for each application. General Protocols are available in the Technical Information section on our website.

| | Recommended Concentration | Sample |
| Flow Cytometry | 0.25-1 µg/10 ⁶ cells | See Below |

DATA

Flow Cytometry

Detection of Integrin α M/CD11b in Human PBMCs by Flow Cytometry. Human peripheral blood mononuclear cells (PBMCs) were stained with Mouse Anti-Human CD14 PE-conjugated Monoclonal Antibody (Catalog # FAB3832P) and either (A) Mouse Anti-Human Integrin α M/CD11b Alexa Fluor® 750-conjugated Monoclonal Antibody (Catalog # FAB16991S) or (B) Mouse IgG2B Alexa Fluor 750 Isotype Control (Catalog # IC0041S). View our protocol for Staining Membrane-associated Proteins.

PREPARATION AND STORAGE

Shipping The product is shipped with polar packs. Upon receipt, store it immediately at the temperature recommended below.

Stability & Storage

Protect from light. Do not freeze.

12 months from date of receipt. 2 to 8 °C as supplied

BACKGROUND

The Integrin family proteins are heterodimeric transmembrane receptors composed of an α and a β subunit. The Integrin α M subunit, also known as MAC-1 α subunit or CD11b, combines with the Integrin β 2 subunit (CD18) to form the non-covalent heterodimer Integrin α M/ β 2, also known as MAC-1 and Complement Receptor type 3 (CR3). Integrin α M/ β 2 is expressed on granulocytes, macrophages, dendritic cells and natural killer cells. Upon activation, α M/ β 2 can bind several ligands (including ICAM-1, Fibrinogen and the C3 Complement Fragment C3bi) to mediate phagocyte adhesion, migration and ingestion of complement-opsonized particles.

PRODUCT SPECIFIC NOTICES

This product is provided under an agreement between Life Technologies Corporation and R&D Systems, Inc, and the manufacture, use, sale or import of this product is subject to one or more US patents and corresponding non-US equivalents, owned by Life Technologies Corporation and its affiliates. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components (1) in manufacturing; (2) to provide a service, information, or data to an unaffiliated third party for payment; (3) for therapeutic, diagnostic or prophylactic purposes; (4) to resell, sell, or otherwise transfer this product or its components to any third party, or for any other commercial purpose. Life Technologies Corporation will not assert a claim against the buyer of the infringement of the above patents based on the manufacture, use or sale of a commercial product developed in research by the buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Life Technologies Corporation, Cell Analysis Business Unit, Business Development, 29851 Willow Creek Road, Eugene, OR 97402, Tel: (541) 465-8300. Fax: (541) 335-0354.
