## RD SYSTEMS a biotechne brand

## Human Complement Component C5aR1 Alexa Fluor® 488-conjugated Antibody

Monoclonal Mouse IgG<sub>2A</sub> Clone # 347234 Catalog Number: FAB36481G 100 µg

| Species Reactivity | Human   |  |
|--------------------|---|--|
| Species Reactivity | numan   |  |
| Specificity        | Detects human Complement Component C5aR1 in direct ELISAs.                    |  |
| Source             | Monoclonal Mouse IgG <sub>2A</sub> Clone # 347234                             |  |
| Purification       | Protein A or G purified from hybridoma culture supernatant                    |  |
| Immunogen          | NS0 mouse myeloma cell line transfected with human Complement Component C5aR1 |  |
|                    | Met1-Val350   |  |
|                    | Accession # P21730  |  |
| Conjugate          | Alexa Fluor 488   |  |
|                    | Excitation Wavelength: 488 nm   |  |
|                    | Emission Wavelength: 515-545 nm   |  |
| Formulation        | Supplied 0.2 mg/mL in a saline solution containing BSA and Sodium Azide.      |  |

\*Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Sheet (SDS) for additional information and handling instructions.

| APPLICATIONS  |                                 |   |  |  |
|---|---------------------------------|---|--|--|
| Please Note: Optimal dilutions should be determined by each laboratory for each application. General Protocols are available in the Technical Information section on our website. |                                 |   |  |  |
|   | Recommended<br>Concentration    | Sample  |  |  |
| Flow Cytometry  | 0.25-1 µg/10 <sup>6</sup> cells | HEK293 Human Cell Line Transfected with Human C5aR and eGFP |  |  |

| PREPARATION AND STORAGE |   |  |
|-------------------------|---|--|
| Shipping                | The product is shipped with polar packs. Upon receipt, store it immediately at the temperature recommended below. |  |
| Stability & Storage     | Protect from light. Do not freeze.  |  |
|                         | <ul> <li>12 months from date of receipt, 2 to 8 °C as supplied.</li> </ul>  |  |

## BACKGROUND

Complement Component C5a R1 (C5aR1), also known as C5a ligand and CD88, is a 7TM protein expressed on myeloid, endothelial, epithelial, and smooth muscle cells. C5aR binds the activated complement anaphylatoxin C5a. In established allergic environments, this triggers neutrophil and eosinophil chemotaxis and the release of proinflammatory mediators. In contrast, C5aR1/C5a interactions are protective during allergen sensitization. Human C5aR1 shares 66% amino acid sequence identity with mouse and rat C5aR.

## PRODUCT SPECIFIC NOTICES

This product is provided under an agreement between Life Technologies Corporation and R&D Systems, Inc, and the manufacture, use, sale or import of this product is subject to one or more US patents and corresponding non-US equivalents, owned by Life Technologies Corporation and its affiliates. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components (1) in manufacturing; (2) to provide a service, information, or data to an unaffiliated third party for payment; (3) for therapeutic, diagnostic or prophylactic purposes; (4) to resell, sell, or otherwise transfer this product or its components to any third party, or for any other commercial purpose. Life Technologies Corporation will not assert a claim against the buyer of the infringement of the above patents based on the manufacture, use or sale of a commercial product developed in research by the buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Life Technologies Corporation, Cell Analysis Business Unit, Business Development, 29851 Willow Creek Road, Eugene, OR 97402, Tel: (541) 465-8300. Fax: (541) 335-0354.
