

Human CHRM2 Alexa Fluor[®] 350-conjugated Antibody

Monoclonal Mouse IgG2B Clone # 585713 Catalog Number: FAB6377U

100 µg

| DESCRIPTION | | | |
|--------------------|---|--|--|
| Species Reactivity | Human | | |
| Specificity | Detects human CHRM2 in transfectants but not irrelevant transfectants in flow cytometry. | | |
| Source | Monoclonal Mouse IgG _{2B} Clone # 585713 | | |
| Purification | Protein A or G purified from hybridoma culture supernatant | | |
| Immunogen | NS0 mouse myeloma cell line transfected with human CHRM2 Accession # P08172 | | |
| Conjugate | Alexa Fluor 350 Excitation Wavelength: 346 nm Emission Wavelength: 442 nm | | |
| Formulation | Supplied 0.2 mg/mL in a saline solution containing BSA and Sodium Azide. | | |
| | *Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Sheet (SDS) for additional information and handling instructions. | | |

| Please Note: Optimal dilutions should be determined by | by each laboratory for each application | ion. General Protocols are available in the Technical Information section on our website. |
|--|---|---|
| | | |
| | Recommended Concentration | Sample |
| Flow Cytometry | 0.25-1 μg/10 ⁶ cells | HEK293 Human Cell Line transfected with Human CHRM2 and eGFP |

| PREPARATION AND STORAGE | | |
|-------------------------|--|--|
| Shipping | The product is shipped with polar packs. Upon receipt, store it immediately at the temperature recommended below. | |
| Stability & Storage | Protect from light. Do not freeze. 12 months from date of receipt, 2 to 8 °C as supplied. | |

BACKGROUND

Muscarinic acetylcholine receptor M2 (CHRM2) is a 60 kDa 7-transmembrane glycoprotein that is predominantly expressed in the heart and central nervous system. CHRM2 mediates signal transduction in the autonomic nervous system in response to muscarinic agonists. Polymorphisms of CHRM2 are associated with alcohol dependence, depression, bipolar disorder, and recovery of heart function after myocardial infarction. Human CHRM2 shares 96% aa sequence identity with mouse and rat CHRM2

PRODUCT SPECIFIC NOTICES

This product is provided under an agreement between Life Technologies Corporation and R&D Systems, Inc, and the manufacture, use, sale or import of this product is subject to one or more US patents and corresponding non-US equivalents, owned by Life Technologies Corporation and its affiliates. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components (1) in manufacturing; (2) to provide a service, information, or data to an unaffiliated third party for payment; (3) for therapeutic, diagnostic or prophylactic purposes; (4) to resell, sell, or otherwise transfer this product or its components to any third party, or for any other commercial purpose. Life Technologies Corporation will not assert a claim against the buyer of the infringement of the above patents based on the manufacture, use or sale of a commercial product developed in research by the buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Life Technologies Corporation, Cell Analysis Business Unit, Business Development, 29851 Willow Creek Road, Eugene, OR 97402, Tel: (541) 465-8300. Fax: (541) 335-0354
