Human/Mouse/Rat NLRP10/Pynod/NALP10 Alexa Fluor® 405-conjugated Antibody

Monoclonal Mouse IgG_{2B} Clone # 578502

Catalog Number: FAB6606V

100 µg

DESCRIPTION

Species Reactivity	Human/Mouse/Rat
Specificity	Detects human NLRP10/Pynod/NALP10 in direct ELISAs and Western blots. In direct ELISAs, no cross-reactivity with recombinant human (rh) NALP1 (aa 1-323), rhNALP1 (aa 1331-1429), rhNALP2 (aa 1-208), rhNALP3 (aa 3-223), rhNALP3 (aa
Source	Monoclonal Mouse IgG_{2B} Clone # 578502
Purification	Protein A or G purified from hybridoma culture supernatant
Immunogen	*E. coli*-derived recombinant human NLRP10/Pynod/NALP10 Met386-Ile655 Accession # Q86W26
Conjugate	Alexa Fluor 405 Excitation Wavelength: 405 nm Emission Wavelength: 421 nm
Formulation	Supplied 0.2mg/ml in 1X PBS with RDF1 and 0.09% Sodium Azide *Contains <0.1% Sodium Azide, which is not hazardous at this concentration according to GHS classifications. Refer to the Safety Data Sheet (SDS) for additional information and handling instructions.

APPLICATIONS

Please Note: *Optimal dilutions should be determined by each laboratory for each application. General Protocols are available in the Technical Information section on our website.*

Western Blot	Optimal dilution of this antibody should be experimentally determined.

PREPARATION AND STORAGE

Shipping	The product is shipped with polar packs. Upon receipt, store it immediately at the temperature recommended below.
Stability & Storage	Protect from light. Do not freeze. 12 months from date of receipt, 2 to 8 °C as supplied

BACKGROUND

NLRP10, also known as Pynod, NALP10, and NOD8, is a 75 kDa cytoplasmic protein that associates with the ASC component of inflammasomes. NLRP10 inhibits ASC-dependent apoptosis, NFkB activation, and Caspase-1-dependent processing of IL-1β. Human NLRP10 contains one Pyrin domain (aa 1-96) and one NACHT domain (aa 167-484) but no leucine-rich repeats. Within aa 386-655, human NLRP10 shares approximately 50% aa sequence identity with mouse and rat NLRP10.

PRODUCT SPECIFIC NOTICES

This product is provided under an agreement between Life Technologies Corporation and R&D Systems, Inc, and the manufacture, use, sale or import of this product is subject to one or more US patents and corresponding non-US equivalents, owned by Life Technologies Corporation and its affiliates. The purchase of this product conveys to the buyer the non-transferable right to use the purchased amount of the product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components (1) in manufacturing; (2) to provide a service, information, or data to an unaffiliated third party for payment; (3) for therapeutic, diagnostic or prophylactic purposes; (4) to resell, sell, or otherwise transfer this product or its components to any third party, or for any other commercial purpose. Life Technologies Corporation will not assert a claim against the buyer of the infringement of the above patents based on the manufacture, use or sale of a commercial product developed in research by the buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Life Technologies Corporation, Cell Analysis Business Unit, Business Development, 29851 Willow Creek Road, Eugene, OR 97402, Tel: (541) 465-8300. Fax: (541) 335-0354.
