

DESCRIPTION

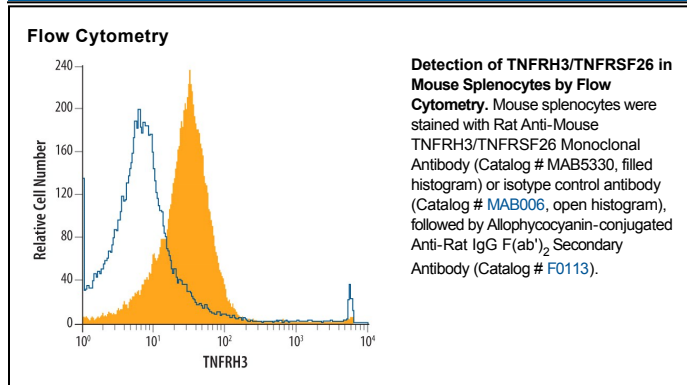

Species Reactivity	Mouse
Specificity	Detects mouse TNFRH3/TNFRSF26 in direct ELISAs. In direct ELISAs, no cross-reactivity with recombinant mouse (rm) Fas, rmTNF RI, and rmTNF RII is observed.
Source	Monoclonal Rat IgG _{2A} Clone # 509027
Purification	Protein A or G purified from hybridoma culture supernatant
Immunogen	Chinese hamster ovary cell line CHO-derived recombinant mouse TNFRH3/TNFRSF26 Ser20-Lys162 Accession # P83626
Formulation	Lyophilized from a 0.2 µm filtered solution in PBS with Trehalose. See Certificate of Analysis for details. *Small pack size (-SP) is supplied as a 0.2 µm filtered solution in PBS.

APPLICATIONS

Please Note: Optimal dilutions should be determined by each laboratory for each application. *General Protocols* are available in the *Technical Information* section on our website.

	Recommended Concentration	Sample
Flow Cytometry	0.25 µg/10 ⁶ cells	See Below
CyTOF-ready	Ready to be labeled using established conjugation methods. No BSA or other carrier proteins that could interfere with conjugation.	

DATA

PREPARATION AND STORAGE

Reconstitution	Reconstitute at 0.5 mg/mL in sterile PBS.
Shipping	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below. *Small pack size (-SP) is shipped with polar packs. Upon receipt, store it immediately at -20 to -70 °C
Stability & Storage	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. <ul style="list-style-type: none"> ● 12 months from date of receipt, -20 to -70 °C as supplied. ● 1 month, 2 to 8 °C under sterile conditions after reconstitution. ● 6 months, -20 to -70 °C under sterile conditions after reconstitution.

BACKGROUND

Tumor necrosis factor receptor homolog 3 (TNFRH3; also tumor necrosis factor receptor superfamily member 26) is a 21 kDa (predicted, unglycosylated) type I transmembrane protein and member of the TNF receptor superfamily. The ECD contains two potential sites of N-linked glycosylation and a cysteine-rich region (aa 38-126). There is no human ortholog for TNFRH3. TNFRH3 is expressed in thymus and spleen with detectable levels in the lung.
