

Product Name: Mouse Methylcellulose Complete Media Without Epo

Reviewed on: 30 November 2017

1. Identification of Substance:

▪ **Other means of identification: Catalog Number: HSC008**

Components: Mouse Methylcellulose Complete Media Without Epo (contains Sodium selenite, 2-Mercaptoethanol and Holo Transferrin)

▪ **GHS product identifier:** Mouse Methylcellulose Complete Media Without Epo

▪ **Application of the substance / the preparation:** For Research Use Only

▪ **Manufacturer/Supplier:**

Bio-Techne - R&D Systems Inc.

614 McKinley Place N.E.

Minneapolis, MN 55413 USA

1-800-343-7475

▪ **For product related questions call:** 1-800-343-7475. In Europe call: +44(0)1235-529449.

Emergency information: In case of a chemical emergency, spill, leak, fire, or accident call Bio-Techne - R&D Systems Inc. at 612-379-2956 or 1-800-374-7475.

2. Hazard Identification:

▪ **Classification: Regulation (EC) No. 1272/2008 (CLP/EU-GHS), 29 CFR 1910.1200 (OSHA):**

Some components indicated above contain: 2-Mercaptoethanol Solution

Not listed at this concentration.

▪ **Classification according to EU Directives 67/548/EEC or 1999/45/EC:** Not listed at this concentration.

3. Information on Ingredients:

Description: Thioethylene glycol, 2-Hydroxyethylmercaptan, BME, β -Mercaptoethanol **Formula:** C₂H₆OS

Molecular Weight: 78.13 g/mol

Contains	CAS No.	EC-No.	Index-No.	Content
2-Mercaptoethanol	60-24-2	200-464-6	-	< 0.1 %

4. First Aid Measures:

- **After inhalation:** Move person into fresh air. Consult a physician if you feel unwell.
- **After skin contact:** Wash off with soap and plenty of water. Remove contaminated clothing. Consult a physician.
- **After eye contact:** Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
- **After swallowing:** Rinse mouth with water. Call a physician.
- **Most important symptoms and effects, both acute and delayed:** Unknown
- **Indication of any immediate medical attention and special treatment needed:** no data available

5. Fire Fighting Measures:

- **Suitable extinguishing agents:** Powder, water spray, foam or carbon dioxide.
- **Special hazards arising from the substance or mixture:** Emits irritating fumes under fire conditions.
- **Protective equipment:** Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.
- **Further information:** Use water spray to cool unopened containers.

Product Name: Mouse Methylcellulose Complete Media Without Epo

Reviewed on: 30 November 2017

6. Accidental Release Measures:

- **Person-related safety precautions:** Wear respiratory protection. Use appropriate personal protective equipment to prevent contamination of skin, eyes and personal clothing. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition.
- **Measures for environmental protection:** Keep away from drains. **Discharge into environment must be avoided.**
- **Measures for containment and cleaning:** Contain spillage and collect with a electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations. Keep in suitable closed containers for disposal. See section 13.

7. Handling and Storage:

- **Precautions for safe handling:** Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Avoid inhalation of vapour or mist. Keep away from sources of ignition. No smoking or eating in the laboratory areas.
- **Conditions for safe storage:** Store in a cool, dry place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.
- **Recommended storage:** 2 - 8° C.

8. Exposure Controls and Personal Protection:

- **Control parameters:** Contains no substances with occupational exposure limit values.
- **Appropriate engineering controls:** Use adequate general or local exhaust ventilation to keep airborne odors low. Facilities should be equipped with an eyewash and a safety shower.
- **Individual protection measures:** Wash hands thoroughly after handling chemical products and before eating, smoking or using the toilet. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.
Eye/face protection: Wear appropriate protective eyeglasses or chemical safety goggles.
Skin/hand protection: Wear appropriate protective gloves to prevent skin exposure. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.
Body protection: Wear appropriate protective clothing to prevent contact with skin.

9. Physical and Chemical Properties:

- | | |
|--|--|
| ▪ Appearance: Form: Liquid, Colorless to yellow | ▪ Upper/lower flammability or explosive limits: Not available |
| Upper/lower flammability or explosive limits: Not available | |
| ▪ Odor: Stench, rotten egg-like | ▪ Vapor density: Not available |
| ▪ Odor threshold: Not available | ▪ Vapor pressure: Not available |
| ▪ pH: Not available. | ▪ Relative density: Not available |
| ▪ Melting point/freezing point: Not available | ▪ Solubility in/Miscibility with Water: Soluble |
| ▪ Boiling point/Boiling range: Not available | ▪ Partition coefficient: octanol/water: Not available |
| ▪ Flash point: Not available | ▪ Auto igniting: Not available |
| ▪ Evaporation rate: Not available | ▪ Decomposition temperature: Not available |
| ▪ Flammability (solid, gas): Not available | ▪ Viscosity: Not available |

10. Stability and Reactivity:

- **Reactivity:** No data available
- **Chemical Stability:** Stable under normal temperatures and pressures.
- **Possibility of hazardous reactions:** No data available
- **Conditions to avoid:** Heat, Flames, Sparks
- **Incompatible materials:** Metals, Oxidizing agents
- **Hazardous decomposition products:** Carbon monoxide, oxides of sulfur, irritating and toxic fumes and gases, carbon dioxide.

11. Toxicological Information:

- **Acute toxicity: Oral LD50:** LD50 Oral, rat – 244 mg/kg, LD50 Inhalation, mouse – 13200 mg/m3. LD50 Dermal, rabbit – 150 mg/kg
- **Skin corrosion/irritation:** Skin, rabbit – irritating to skin.
- **Serious eye damage/irritation:** Eyes, rabbit – Risk of serious damage to eyes.
- **Respiratory or skin sensitization:** No data available.
- **Germ cell mutagenicity:** Experiments showed mutagenic effects in cultured bacterial cells.
- **Carcinogenicity:** IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- **Reproductive toxicity:** No data available
- **Specific target organ toxicity (STOT) -single exposure:** Irritating to eyes, skin and respiratory tract. May cause effects on the central nervous system.
- **Specific target organ toxicity (STOT) -repeated exposure:** No data available
- **Aspiration hazard:** No data available
- **Information on likely routes of exposure:** oral, dermal, inhalation.
- **Potential Health Effects:** Inhalation: May cause respiratory tract irritation or shortness of breath.
Ingestion: Toxic if swallowed.
Skin: May causes skin irritation, redness and pain.
Eyes: May cause eye irritation, redness and pain.
- **Symptoms related to the physical, chemical and toxicological characteristics:**
Inhalation: Caused respiratory tract irritation, respiratory depression, nausea and headache.
Ingestion: Causes nausea.
Skin: Causes skin irritation.
Eyes: Causes eye irritation.
- **Delayed and immediate effects and also chronic effects from short and long term exposure:** No data available.
- **Other Information:** RTECS: KL5600000

12. Ecological Information:

- **Ecotoxicity: This substance is toxic to aquatic life. Fish:** LC50 (Leuciscus idus-Carp) – 46 mg/L – 96 hr.
Daphnia: LC50 (Daphnia magna-Water flea) – 1.2 mg/L – 48 hr.
- **Biodegradability:** no data available
- **Bioaccumulative potential:** Not expected to biodegrade rapidly under anaerobic conditions.
- **Mobility in soil:** Is expected to have very high mobility in soil.
- **Other adverse effects:** Toxic to aquatic life.

13. Disposal Considerations:

- **Disposal methods:** This combustible material may be burned in a chemical incinerator equipped with an afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste

disposal service to dispose of this material.

- **Contaminated packaging:** Dispose in the same manner as unused product.
 - **Special precautions:** no data available

14. Transportation Information:

- **UN Number:** None required at this concentration.
- **DOT regulations:** · **Hazard class:** None
- **Land transport ADR/RID (cross-border):** Not regulated.
- **Maritime transport IMDG:** Not regulated.
- **Marine pollutant:** No
- **Air transport ICAO-TI and IATA-DGR:** Not regulated.
 - **Transport/Additional information:** Not dangerous at this concentration.

15. Regulations:

- **US Federal and State Regulations**
 - TSCA (Toxic Substances Control Act):** 2-Mercaptoethanol is listed.
 - SARA 313:** not listed.
 - CERCLA/SARA 304:** not listed.
 - SARA 311/312 Hazards:** Acute Health Hazard
 - CERCLA Reportable Quantity:** not listed.
 - California Proposition 65:** 2-Mercaptoethanol is not listed.

16. Other Information:

- **Notice to reader:** To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

2. Hazard Identification:

- **Classification: Regulation (EC) No. 1272/2008 (CLP/EU-GHS), 29 CFR 1910.1200 (OSHA):** Sodium Selenite
- **GHS Classification:** Not listed at this concentration.
- **Classification according to EU Directives 67/548/EEC or 1999/45/EC:** Not listed at this concentration.

3. Information on Ingredients:

Description: Sodium selenite Formula: $\text{Na}_2\text{O}_3\text{Se}$ Molecular Weight: 172.94 g/mol

Contains	CAS No.	EC-No.	Index-No.	Content
Sodium selenite	10102-18-8	233-267-9	034-003-00-3	< 0.001%

4. First Aid Measures:

Product Name: Mouse Methylcellulose Complete Media Without Epo

Reviewed on: 30 November 2017

- **After Inhalation:** If breathed in, move person to fresh air. If not breathing, give artificial respiration. Consult a physician.
- **After Skin Contact:** Wash off with soap and plenty of water. Take victim immediately to a hospital. Consult a physician.
- **After Eye Contact:** Flush eyes with water as a precaution.
- **After Swallowing:** Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.
- **Most important symptoms and effects, both acute and delayed:** Acute: Abdominal cramps. Vomiting. Cough, dizziness, Headache. Delayed: contact with skin may cause dermatitis.
- **Indication of any immediate medical attention and special treatment needed:** Consult a physician.

5. Fire Fighting Measures:

- **Suitable extinguishing agents:** Water spray, foam, carbon dioxide, dry sand, special powder.
- **Special hazards arising from the substance or mixture:** Hazardous decomposition products formed under fire conditions – Sodium oxides, Selenium/Selenium oxides.
- **Special protective actions for fire-fighters:** Self contained breathing apparatus and full protective clothing must be worn in case of fire.

6. Accidental Release Measures:

- **Personal precautions, protective equipment and emergency procedures:** Wear respiratory protection. Use appropriate personal protective equipment to prevent contamination of skin, eyes and personal clothing. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas.
- **Environmental precautions:** Keep away from drains. **Discharge into environment must be avoided.**
- **Methods and materials for containment and cleaning up:** Pick up and arrange disposal without creating dust. Sweep up and shovel. Do not flush with water. Keep in suitable closed containers for disposal.

7. Handling and Storage:

- **Precautions for safe handling:** Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Avoid inhalation of vapour or mist. Provide appropriate exhaust ventilation at places where dust is formed.
- **Conditions for safe storage, including incompatibilities:** Store locked up. Keep container tightly closed in a dry and well-ventilated place. Never allow product to get in contact with water during storage. Do not allow to come in contact with acids.

8. Exposure Controls and Personal Protection:

- **Control parameters:**
Component: Sodium Selenite (CAS# 10102-18-8):
USA Occupational Exposure Limits (OSHA): TWA – 0.2 mg/m³
UK EH40 WEL – Workplace Exposure Limits: TWA – 0.1 mg/m³
- **Appropriate engineering controls:** Use with adequate ventilation including local extraction. Ensure that eyewash stations and safety showers are close to the workstation location.
- **Individual protection measures:** Wash hands thoroughly after handling chemical products and before eating, smoking or using the toilet. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.
Eye/face protection: Face Shield and Safety Glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).
Skin/hand protection: Handle with protective gloves, plastic or rubber. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.
Body protection: Complete Suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Product Name: Mouse Methylcellulose Complete Media Without Epo

Reviewed on: 30 November 2017

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved.

Respiratory protection: In case of inadequate ventilation, use a suitable respirator. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

10. Stability and Reactivity:

- **Reactivity:** No data available
- **Chemical stability:** Stable under recommended storage conditions.
- **Possibility of hazardous reactions:** No data available
- **Conditions to avoid:** No data available
- **Incompatible materials:** Strong acids
- **Hazardous decomposition products:** Products formed under fire conditions: Sodium oxides, Selenium/selenium oxides.

11. Toxicological Information:

- **Acute toxicity: Oral LD50:** LD50 Oral – mouse – 7.08 mg/kg, LD50 Oral – rabbit – 2.25 mg/.
- **Inhalation LC50 and Dermal LD50** – No data available.
- **Skin corrosion/irritation:** Skin rashes.
- **Serious eye damage/irritation:** Severe eye irritation may occur with exposure to selenium dust.
- **Respiratory or skin sensitization:** Upper respiratory irritation.
- **Germ cell mutagenicity:** Laboratory experiments have shown mutagenic effects.
- **Carcinogenicity:** No data available.
- **Reproductive toxicity:** No data available.
- **Specific target organ toxicity (STOT) -single exposure:** No data available.
- **Specific target organ toxicity (STOT) -repeated exposure:** No data available.
- **Aspiration hazard:** No data available
- **Information on likely routes of exposure:** Routes of entry anticipated; oral, dermal, inhalation.
- **Potential Health Effects:**
 - Inhalation: Toxic if inhaled. May cause respiratory tract irritation.
 - Ingestion: May be fatal if swallowed.
 - Skin: May be harmful if absorbed through skin. May cause skin irritation.
 - Eyes: May cause eye irritation.
- **Symptoms related to the physical, chemical and toxicological characteristics:**

Inhalation: Toxic if inhaled. May cause respiratory tract irritation.
Ingestion: May be fatal if swallowed.
Skin: May be harmful if absorbed through skin. May cause skin irritation.
Eyes: May cause eye irritation.

Signs and Symptoms of Exposure: Salivation, Tremors, Alopecia, Vomiting, Dermatitis

Delayed and immediate effects and also chronic effects from short and long term exposure:

Short term exposure:

Potential immediate effects: facial flushing, light headedness, muscle tenderness, tremors. Upper GI irritation. Eye irritation.

Potential delayed effects: Nausea, vomiting, upper GI irritation, skin rash.

Long term exposure:

Potential immediate effects: Not available.

Potential delayed effects: Not available.

- **Effects of chronic exposure:** marked hepatic necrosis in laboratory experiments.
- **Numerical measures of toxicity:** Not available
- **Other Information:** RTECS: VS7350000

12. Ecological Information:

- **Ecotoxicity:** Toxicity to fish: LC50 – Oncorhynchus mykiss (rainbow trout) – 2.75 mg/L – 96.0 hr.
Mortality NOEC – Daphnia magna (Water flea) – 0.24 mg/L – 21 hr.
- **Biodegradability and Persistence:** No data available.
- **Bioaccumulative potential:** may occur along the food chain in plants and fish.
- **Mobility in soil:** No data available.
- **Other adverse effects:** Toxic to aquatic organisms. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Very toxic to aquatic life with long lasting effects.

13. Disposal Considerations:

- **Disposal methods:** Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber. Dispose of waste in accordance to applicable national, regional, or local regulations.
- **Contaminated packaging:** Dispose in the

- **Suitable extinguishing agents:** Any means suitable for extinguishing the surrounding area.
- **Specific hazards arising from the chemical:** Dangerous decomposition is not anticipated.
 - **Protective equipment:** Wear appropriate protective clothing and a self-contained breathing apparatus if necessary.

6. Accidental Release Measures:

- **Person-related safety precautions:** Avoid breathing vapors, mist or gas. Ensure adequate ventilation.
- **Measures for environmental protection:** Prevent further spillage or leakage if safe to do so.
- **Measures for containment and cleaning:** Absorb liquid components with inert liquid-binding material. Pick up mechanically. Dispose contaminated material as waste according to item 13.

7. Handling and Storage:

- **Precautions for safe handling:** Treat as a potential biohazard. Store away from all foodstuffs. For laboratory use only.
- **Information about protection against explosions and fires:** Normal measures for preventive fire protection.
- **Conditions for safe storage:** Store in a cool place. Keep container tightly closed in a dry and well ventilated place.

8. Exposure Controls and Personal Protection:

- **Components:** UK. EH40 WEL- **Workplace Exposure Limits:** Value: Unknown
- **Appropriate engineering controls:** Follow usual standard laboratory practices. The following personal protection is recommended:
 - Respiratory Protection:** Respiratory Protection not required. For nuisance exposures use respirators and components approved under appropriate government standards.
 - Hand Protection:** Handle with gloves. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices.
 - Eye Protection:** Use equipment for eye protection tested and approved under appropriate government standards.
 - Skin and Body Protection:** Use impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
 - Hygiene Measures:** Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the workday.
