Product Name: GGTI 298 Catalog No.: 2430 Batch No.: 5

1217457-86-7 CAS Number:

IUPAC Name: N-[4-[2(R)-Amino-3-mercaptopropyl]amino-2-(1-naphthalenyl)benzoyl]-L-leucine methyl ester trifluoroacetate salt

1. PHYSICAL AND CHEMICAL PROPERTIES

C₂₇H₃₃N₃O₃S.CF₃CO₂H **Batch Molecular Formula:**

Batch Molecular Weight: 593.66 **Physical Appearance:** White solid

DMSO to 25 mM Solubility: Store at -20°C Storage:

Batch Molecular Structure:

2. ANALYTICAL DATA

HPLC: Shows 96.6% purity

¹H NMR: Consistent with structure Mass Spectrum: Consistent with structure

Product Name: GGTI 298 Catalog No.: 2430 Batch No.: 5

CAS Number: 1217457-86-7

 $IUPAC\ Name: \ N-[4-[2(R)-Amino-3-mercaptopropyl]amino-2-(1-naphthalenyl) benzoyl]-L-leucine\ methyl\ ester\ trifluoroacetate\ salt$

Description:

GGTI 298 is a CAAZ peptidomimetic geranylgeranyltransferase I (GGTase I) inhibitor. Strongly inhibits the processing of geranylgeranylated Rap1A with little effect on processing of farnesylated Ha-Ras (IC $_{50}$ values are 3 and > 10 μM respectively). Causes $G_0\text{-}G_1$ cell cycle block and apoptosis in A549 cells and inhibits cell invasion and migration in COLO 320CM cells.

Physical and Chemical Properties:

Batch Molecular Formula: C₂₇H₃₃N₃O₃S.CF₃CO₂H

Batch Molecular Weight: 593.66 Physical Appearance: White solid

Minimum Purity: ≥95%

Batch Molecular Structure:

Storage: Store at -20°C. This product is packaged under an inert atmosphere.

Solubility & Usage Info:

DMSO to 25 mM

This product is supplied in lyophilized form. It may appear as a solid, gel or film and be very hard to visualize. Solutions should be made by adding solvent directly to the vial. The vial should then be vortexed vigorously to ensure the product has completely dissolved.

Stability and Solubility Advice:

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. *Unless contradicted by product-specific protocols or instructions, our standard recommendations apply:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
