| <b>Gene Symbol</b>                 | IGFBPL1                                                                                                                                                                                                                                                                                  |
| <b>Species</b>                     | Human                                                                                                                                                                                                                                                                                    |
| <b>Specificity/Sensitivity</b>     | Detects human IGFBP-L1 in direct ELISAs and Western blots. In Western blots, approximately 15% cross-reactivity with recombinant mouse (rm) IGFBP-L1 is observed and less than 1% cross-reactivity with recombinant human IGFBP-1, -2, -3, -4, -5, -6, -7, and rmIGFBP-rP10 is observed. |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant human IGFBP-L1 Ser25-Met278<br>Accession # Q8WX77                                                                                                                                                                                        |
| <b>Notes</b>                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                                                                                        |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                                                          |
| <b>Applications</b>                | Western Blot                                                                                                                                                                                                                                                                             |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                                                                                                                                                             |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                                   |
