| <b>Gene ID</b>                     | 1950                                                                                                                                                                                                                                      |
| <b>Gene Symbol</b>                 | EGF                                                                                                                                                                                                                                       |
| <b>Species</b>                     | Human                                                                                                                                                                                                                                     |
| <b>Specificity/Sensitivity</b>     | Detects human Pro-EGF in direct ELISAs and Western blots. In direct ELISAs, approximately 5% cross-reactivity with recombinant mouse Pro-EGF is observed and less than 1% cross-reactivity with mature recombinant human EGF is observed. |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant human Pro-EGF Ser21-Arg1023<br>Accession # CAA28240                                                                                                                                       |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                           |
| <b>Applications</b>                | Western Blot                                                                                                                                                                                                                              |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                                                                                                              |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                    |
