| Clonality                   | Monoclonal                                                                                                                                                                                 |
| Clone                       | 213611                                                                                                                                                                                     |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                         |
| Isotype                     | IgG2a                                                                                                                                                                                      |
| Conjugate                   | FITC                                                                                                                                                                                       |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                 |
| Buffer                      | PBS                                                                                                                                                                                        |
| Product Description         |                                                                                                                                                                                            |
| Host                        | Mouse                                                                                                                                                                                      |
| Gene ID                     | 8840                                                                                                                                                                                       |
| Gene Symbol                 | WISP1                                                                                                                                                                                      |
| Species                     | Human                                                                                                                                                                                      |
| Specificity/Sensitivity     | Detects human WISP-1/CCN4 in direct ELISAs and Western blots. In direct ELISAs and Western blots, this antibody does not cross-react with recombinant human (rh) CTGF, rhNOV, or rmWISP-1. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human WISP-1/CCN4 Thr23-Asn367<br>Accession # O95388                                                                                       |
| Product Application Details |                                                                                                                                                                                            |
| Applications                | Western Blot                                                                                                                                                                               |
| Recommended Dilutions       | Western Blot                                                                                                                                                                               |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                     |
