| <b>Conjugate</b>                   | PerCP                                                                                                                                                                                                                             |
| <b>Purity</b>                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                                                        |
| <b>Buffer</b>                      | PBS                                                                                                                                                                                                                               |
| <b>Product Description</b>         |                                                                                                                                                                                                                                   |
| <b>Host</b>                        | Mouse                                                                                                                                                                                                                             |
| <b>Gene ID</b>                     | 3459                                                                                                                                                                                                                              |
| <b>Gene Symbol</b>                 | IFNGR1                                                                                                                                                                                                                            |
| <b>Species</b>                     | Human                                                                                                                                                                                                                             |
| <b>Specificity/Sensitivity</b>     | Detects human IFN $\gamma$ R1/CD119 in direct ELISAs and Western blots. In direct ELISAs, no cross-reactivity with recombinant mouse IFN- $\gamma$ R1, recombinant human (rh) IFN- $\gamma$ R2, or rhIL-10 R $\beta$ is observed. |
| <b>Immunogen</b>                   | Human placenta-derived IFN $\gamma$ R1/CD119                                                                                                                                                                                      |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                   |
| <b>Applications</b>                | Neutralization                                                                                                                                                                                                                    |
| <b>Recommended Dilutions</b>       | Neutralization                                                                                                                                                                                                                    |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                            |
