| Gene ID                     | 351                                                                                                                                                                                                                                 |
| Species                     | Human                                                                                                                                                                                                                               |
| Specificity/Sensitivity     | Detects Human APP/Protease Nexin II based on Solanezumab therapeutic antibody. This non-therapeutic antibody uses the same variable region sequence as the therapeutic antibody Solanezumab. This product is for research use only. |
| Immunogen                   | Human APP/Protease Nexin II                                                                                                                                                                                                         |
| Product Application Details |                                                                                                                                                                                                                                     |
| Applications                | Flow Cytometry, CyTOF-ready                                                                                                                                                                                                         |
| Recommended Dilutions       | Flow Cytometry, CyTOF-ready                                                                                                                                                                                                         |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                              |
