| <b>Species</b>                 | Human                                                                                                                                                                                                                                                                           |
| <b>Reactivity Notes</b>        | Human. Other species not tested.                                                                                                                                                                                                                                                |
| <b>Specificity/Sensitivity</b> | NCOA6IP - nuclear receptor coactivator 6 interacting protein                                                                                                                                                                                                                    |
| <b>Immunogen</b>               | NCOA6IP (AAH11999, 1 a.a. ~ 141 a.a) full-length recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.<br>MRVIAIDIDPVKIALARNNAEVYGIADKIEFICGDFLLLASFLKADVVFLLSPPWGGP<br>DYATAETFDIRTMMSPDGFEIFRLSKKITNNIVYFLPRNADIDQVASLAGPGGQV<br>EIEQNFLNNKLKTITAYFGDLIRRPASET |
| <b>Notes</b>                   | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                                                                                                                                              |

**Product Application Details**

|                              |                                                                                               |
|------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Applications</b>          | ELISA, Sandwich ELISA                                                                         |
| <b>Recommended Dilutions</b> | ELISA, Sandwich ELISA                                                                         |
| <b>Application Notes</b>     | Antibody reactive against recombinant protein on ELISA. GST alone used as a negative control. |

## Images

Sandwich ELISA: PIMT Antibody (3F1) [H00096764-M01] - Detection limit for recombinant GST tagged NCOA6IP is approximately 0.3ng/ml as a capture antibody.
