| Species | Human |
| Specificity/Sensitivity | Both variants represent identical protein (NP_694985.28 and NP_006738.3). |
| Immunogen | Peptide with sequence C-ASKQLGSPTADLA corresponding to C-Terminus according to NP_694985.28, NP_006738.3. |

| Product Application Details | |
|-----------------------------|--|
| Applications | Western Blot, Peptide ELISA |
| Recommended Dilutions | Western Blot 1 - 3 ug/ml, Peptide ELISA Detection limit 1:32000 |
| Application Notes | WB: Approx. 150 kDa band observed in human lysates of EBV-immortalized lymphoblastoid is reported in scientific literature (PMID: 9346962). An additional band of 55-60 kDa band was consistently observed, however this band was not blocked by the immunizing peptide and it is therefore a non-specific signal. We call for caution when this product is used for other assays than WB. |
