Product Description

Description	Novus Biologicals Sheep E. Coli J5 LPS Antibody - BSA Free (NB100-62551) is a polyclonal antibody validated for use in ELISA. All Novus Biologicals antibodies are covered by our 100% guarantee.
Host	Sheep
Species	Bacteria
Specificity/Sensitivity	NB100-62551 recognizes the J5 mutant of E. coli 0:111 which lacks the enzyme uridine diphosphate glucose 4-epimerase and therefore produces an incomplete LPS, deficient in galactose and all the sugars distal to the central polymers. The 55 mutant has no O-specific chains and its endotoxin remains as the core LPS containing lipid A, N acetyl glucosamine, 2-keto-3-deoxyoctonate, heptose and glucose (a composition similar to that of the Rc strains of Salmonella).
Immunogen	Heat inactivated Escherichia coli J5
