Immunohistochemistry-Paraffin: ZBP1/DLM-1/DAI Antibody [NBP2-14793] - Staining in human tonsil and kidney tissues using anti-ZBP1 antibody. Corresponding ZBP1 RNA-seq data are presented for the same tissues.

ChIP-Exo-Seq composite graph for Anti-ZBP1/DLM-1/DAI tested in K562 cells. Strand-specific reads (blue: forward, red: reverse) and IgG controls (black: forward, grey: reverse) are plotted against the distance from a composite set of reference binding sites. The antibody exhibits robust target enrichment compared to a non-specific IgG control and precisely reveals its structural organization around the binding site. Data generated by Prof. B. F. Pugh's Lab at Cornell University.
