**NBP2-30929****Ankyrin Repeat Domain 24 Antibody - BSA Free**

| <b>Product Information</b> |                                                                                                                  |
|----------------------------|------------------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>           | 0.1 ml                                                                                                           |
| <b>Concentration</b>       | Concentrations vary lot to lot. See vial label for concentration. If unlisted please contact technical services. |
| <b>Storage</b>             | Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.                           |
| <b>Clonality</b>           | Polyclonal                                                                                                       |
| <b>Preservative</b>        | 0.02% Sodium Azide                                                                                               |
| <b>Isotype</b>             | IgG                                                                                                              |
| <b>Purity</b>              | Affinity purified                                                                                                |
| <b>Buffer</b>              | PBS (pH 7.2) and 40% Glycerol                                                                                    |

| <b>Product Description</b> |                                                                                                                                                                                                           |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Novus Biologicals Rabbit Ankyrin Repeat Domain 24 Antibody - BSA Free (NBP2-30929) is a polyclonal antibody validated for use in IHC. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| <b>Host</b>                | Rabbit                                                                                                                                                                                                    |
| <b>Gene ID</b>             | 170961                                                                                                                                                                                                    |
| <b>Gene Symbol</b>         | ANKRD24                                                                                                                                                                                                   |
| <b>Species</b>             | Human                                                                                                                                                                                                     |
| <b>Immunogen</b>           | This antibody was developed against a recombinant protein corresponding to amino acids:<br>LSLLENERENTSYDVTTLQDEEGELPDLPGAEVLLSRQLSPSAQEHLASLQEQ<br>VAVLTRQNQELMEKVQILENFEKDETQMEVEALAEVIPLALYDS          |

| <b>Product Application Details</b> |                                                                               |
|------------------------------------|-------------------------------------------------------------------------------|
| <b>Applications</b>                | Immunohistochemistry-Paraffin, Immunohistochemistry                           |
| <b>Recommended Dilutions</b>       | Immunohistochemistry 1:50 - 1:200, Immunohistochemistry-Paraffin 1:50 - 1:200 |
| <b>Application Notes</b>           | For IHC-Paraffin, HIER pH 6 retrieval is recommended.                         |

**Images**

Immunohistochemistry: Ankyrin Repeat Domain 24 Antibody [NBP2-30929] - Staining of human kidney shows strong cytoplasmic positivity in cells in tubules.
