**NBP2-37982**

BPI Antibody - BSA Free

| Product Information |                                                                                                                  |
|---------------------|------------------------------------------------------------------------------------------------------------------|
| Unit Size           | 0.1 ml                                                                                                           |
| Concentration       | Concentrations vary lot to lot. See vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.                           |
| Clonality           | Polyclonal                                                                                                       |
| Preservative        | 0.02% Sodium Azide                                                                                               |
| Isotype             | IgG                                                                                                              |
| Purity              | Affinity purified                                                                                                |
| Buffer              | PBS (pH 7.2) and 40% Glycerol                                                                                    |

| Product Description |                                                                                                                                                                                      |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description         | Novus Biologicals Rabbit BPI Antibody - BSA Free (NBP2-37982) is a polyclonal antibody validated for use in IHC. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| Host                | Rabbit                                                                                                                                                                               |
| Gene ID             | 671                                                                                                                                                                                  |
| Gene Symbol         | BPI                                                                                                                                                                                  |
| Species             | Human                                                                                                                                                                                |
| Immunogen           | This antibody was developed against a recombinant protein corresponding to amino acids:<br>TTGSMEVSAESNRLVGELKLDRLLELKHSNIGPFPVELLQDIMNYIVPILVLPRV<br>NEKLQKGFPLPTPARVQLYNVVLQP      |

| Product Application Details |                                                                                   |
|-----------------------------|-----------------------------------------------------------------------------------|
| Applications                | Immunohistochemistry-Paraffin, Immunohistochemistry                               |
| Recommended Dilutions       | Immunohistochemistry 1:500 - 1:1000, Immunohistochemistry-Paraffin 1:500 - 1:1000 |
| Application Notes           | For IHC-Paraffin, HIER pH 6 retrieval is recommended.                             |

## Images

Immunohistochemistry-Paraffin: BPI Antibody [NBP2-37982] - Staining in human bone marrow and cerebral cortex tissues using anti-BPI antibody. Corresponding BPI RNA-seq data are presented for the same tissues.

Immunohistochemistry-Paraffin: BPI Antibody [NBP2-37982] - Staining of human cerebral cortex shows low expression as expected.

Immunohistochemistry-Paraffin: BPI Antibody [NBP2-37982] - Staining of human bone marrow shows high expression.
