| Host                        | Goat                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Species                     | Human                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Specificity/Sensitivity     | Goat anti Human IgG F(ab') <sub>2</sub> antibody recognizes Fab and F(ab') <sub>2</sub> portion of human IgG by IEP. It reacts with other human immunoglobulins through common light chain reactivity. The antibody demonstrates minimal cross-reactivity with bovine, horse and mouse IgG; other species have not been tested. No reactivity is seen with the Fc portion of human IgG or non-immunoglobulin serum proteins. |
| Immunogen                   | Human IgG F(ab') <sub>2</sub>                                                                                                                                                                                                                                                                                                                                                                                                |
| Product Application Details |                                                                                                                                                                                                                                                                                                                                                                                                                              |
