Brain Temporal Lobe Tissue Slides (Multiple Sclerosis)- Paraffin

| Product Information | |
|--------------------------------|--|
| Unit Size | 5 Slides |
| Concentration | Concentration is not relevant for this product. Please see the protocols for proper use of this product. |
| Storage | Store at 4C. |
| Product Description | |
| Description | <p>Each slide contains a single tissue section with 5 um thickness that is mounted on a positively charged glass slide. The slides included in this package are adjacent/serial sections of brain temporal lobe tissue from one donor. Tissue was fixed in formalin immediately after excision and embedded in paraffin. This product can be used for both immunohistochemistry and in-situ hybridization. At least one of the tissue slides from each lot was stained with H&E to ensure the quality (not included in the package).</p> <p>Samples are IRB-approved from consented donors. Documentation on tissues' clinical histories may be available upon request. Donor information is also available upon request. Please contact nb-technical@bio-techne.com for any questions or requests.</p> <p>For FFPE DNA and RNA isolation, we may be able to provide tissue section slices in tubes. Please contact nb-custom@bio-techne.com for all custom requests related to this product.</p> |
| Species | Human |
| Notes | Donor information available upon request |
| Lysate Type | Tissue |
| Lysate Tissue | Brain |
| Lysate Tissue Condition | Multiple Sclerosis |
| Product Application Details | |
| Applications | Immunohistochemistry-Paraffin, Immunohistochemistry, In-situ Hybridization, Dual RNAscope ISH-IHC |
| Recommended Dilutions | Immunohistochemistry, Immunohistochemistry-Paraffin, In-situ Hybridization, Dual RNAscope ISH-IHC |
| Application Notes | Please bake slides at 60C for 30 minutes before use. |
