|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description         | Novus Biologicals Rabbit SVOP Antibody - Azide and BSA Free (NBP2-94288) is a polyclonal antibody validated for use in WB. All Novus Biologicals antibodies are covered by our 100% guarantee.          |
| Host                | Rabbit                                                                                                                                                                                                  |
| Gene ID             | 55530                                                                                                                                                                                                   |
| Gene Symbol         | SVOP                                                                                                                                                                                                    |
| Species             | Human                                                                                                                                                                                                   |
| Immunogen           | Recombinant fusion protein containing a sequence corresponding to amino acids 1-80 of human SVOP (NP_061181.1).<br>MEEDLFQLRQLPVVKFRRTGESARSEDDTASGEHEVQIEGVHVGLEAVELDD<br>GAAVPKEFANPTDDTFMVEDAVEAIGFG |

| Product Application Details |                           |
|-----------------------------|---------------------------|
| Applications                | Western Blot              |
| Recommended Dilutions       | Western Blot 1:500-1:2000 |

**Images**

Western Blot: SVOP Antibody [NBP2-94288] - Analysis of extracts of U-87MG cells, using SVOP at 1:1000 dilution. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) at 1:10000 dilution. Lysates/proteins: 25ug per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Basic Kit. Exposure time: 5s.
