CA125/MUC16 Antibody [HRP] - (Research Grade abagovomab Biosimilar)

| <b>Product Information</b>         |                                                                                                                                            |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>                   | 0.1 ml                                                                                                                                     |
| <b>Concentration</b>               | Please see the vial label for concentration. If unlisted please contact technical services.                                                |
| <b>Storage</b>                     | Store at 4C in the dark.                                                                                                                   |
| <b>Clonality</b>                   | Monoclonal                                                                                                                                 |
| <b>Preservative</b>                | No Preservative                                                                                                                            |
| <b>Isotype</b>                     | IgG1                                                                                                                                       |
| <b>Conjugate</b>                   | HRP                                                                                                                                        |
| <b>Purity</b>                      | Protein A purified                                                                                                                         |
| <b>Buffer</b>                      | PBS                                                                                                                                        |
| <b>Product Description</b>         |                                                                                                                                            |
| <b>Description</b>                 | The heavy chain type is mulgG1, and the light chain type is mKappa. It has a predicted MW of 145.5 kDa.<br><br>Also known as 'abagovomab'. |
| <b>Host</b>                        | Mouse                                                                                                                                      |
| <b>Gene ID</b>                     | 94025                                                                                                                                      |
| <b>Gene Symbol</b>                 | MUC16                                                                                                                                      |
| <b>Species</b>                     | Human                                                                                                                                      |
| <b>Immunogen</b>                   | MUC16                                                                                                                                      |
| <b>Product Application Details</b> |                                                                                                                                            |
| <b>Applications</b>                | ELISA, Flow Cytometry, Functional                                                                                                          |
| <b>Recommended Dilutions</b>       | Flow Cytometry, ELISA, Functional                                                                                                          |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                     |
