| <b>Clonality</b>                   | Monoclonal                                                                                                                                                                     |
| <b>Clone</b>                       | CL0206                                                                                                                                                                         |
| <b>Preservative</b>                | No Preservative                                                                                                                                                                |
| <b>Reconstitution Instructions</b> | Centrifuge the vial of lyophilized antibody at 12,000 x g for 20 seconds. Reconstitute by adding sterile, distilled water to achieve a final antibody concentration of 1mg/ml. |
| <b>Isotype</b>                     | IgG1                                                                                                                                                                           |
| <b>Purity</b>                      | Protein A purified                                                                                                                                                             |
| <b>Buffer</b>                      | Lyophilized from a 0.2 um filtered solution in PBS with Trehalose                                                                                                              |

**Product Description**

|                    |                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b> | Novus Biologicals Mouse PCM1 Antibody (CL0206) - Azide and BSA Free (NBP2-52878) is a monoclonal antibody validated for use in IHC and WB. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| <b>Host</b>        | Mouse                                                                                                                                                                                                          |
| <b>Gene ID</b>     | 5108                                                                                                                                                                                                           |
| <b>Gene Symbol</b> | PCM1                                                                                                                                                                                                           |
| <b>Species</b>     | Human                                                                                                                                                                                                          |
| <b>Immunogen</b>   | This antibody was generated using a recombinant protein sequence of Q15154, with the exact immunogen sequence remaining proprietary.                                                                           |

**Product Application Details**

|                              |                                                                   |
|------------------------------|-------------------------------------------------------------------|
| <b>Applications</b>          | Western Blot, Immunohistochemistry-Paraffin                       |
| <b>Recommended Dilutions</b> | Western Blot 1 ug/ml, Immunohistochemistry-Paraffin 1:200 - 1:500 |
| <b>Application Notes</b>     | For IHC-Paraffin, HIER pH 6 retrieval is recommended.             |

**Images**

Analysis in human testis and pancreas tissues using NBP3-44065 antibody. Corresponding PCM1 RNA-seq data are presented for the same tissues.

Lane 1: Marker [kDa]  
Lane 2: Human cell line U-251

Staining of human fallopian tube shows moderate to strong positivity in the apical cytoplasm of glandular cells.

Staining of human cerebral cortex shows weak cytoplasmic positivity in neurons.

Staining of human pancreas shows very weak cytoplasmic positivity in exocrine glandular cells as expected.

Staining of human testis shows moderate to strong cytoplasmic positivity in cells in seminiferous ducts.
