| <b>Product Description</b>         |                                                                                                                                                                                                             |
| <b>Description</b>                 | The Ready-To-Use ELISA kit offers pre-diluted detection reagents and a shorter experimental time.<br>Assay Length: 3 hours                                                                                  |
| <b>Species</b>                     | Non-species specific                                                                                                                                                                                        |
| <b>Kit Components</b>              | Pre-coated 96T strip plate, Plate sealer for 96 wells, Standard, Diluent Buffer, Detection Reagent A, Detection Reagent B, TMB Substrate, Stop Solution, Wash Buffer (30 x concentrate), Instruction manual |
| <b>Standard Curve Range</b>        | 1.56 - 100µg/mL (example only; lot dependent)                                                                                                                                                               |
| <b>Sensitivity</b>                 | 0.059µg/mL (example only; lot dependent)                                                                                                                                                                    |
| <b>Inter Assay</b>                 | %CV < 12 (example only; lot dependent)                                                                                                                                                                      |
| <b>Intra Assay</b>                 | %CV < 10 (example only; lot dependent)                                                                                                                                                                      |
| <b>Assay Type</b>                  | Competitive ELISA                                                                                                                                                                                           |
| <b>Suitable Sample Type</b>        | Serum, plasma, tissue homogenates and other biological fluids                                                                                                                                               |
| <b>Sample Volume</b>               | 50 uL                                                                                                                                                                                                       |
| <b>Product Application Details</b> |                                                                                                                                                                                                             |
| <b>Applications</b>                | ELISA                                                                                                                                                                                                       |
| <b>Recommended Dilutions</b>       | ELISA                                                                                                                                                                                                       |
