NBP3-57730-1Set

IL-28B/IFN-lambda 3 Antibody Pair [Biotin]

Product Information	
Unit Size	1 Set
Concentration	Concentration of individual antibodies may be found on the vial label. If unlisted please contact technical services.
Storage	Storage of components varies. See protocol for specific instructions.
Conjugate	Biotin
Product Description	
Description	The kit contains a capture antibody, detection antibody, and recombinant protein standard for assay development, and these antibodies have been validated to function together in an ELISA format using the provided standard. The quantities of kit components are not matched, and individual components may be purchased separately. This product is for research use only.
Gene ID	282617
Gene Symbol	IFNL3
Species	Mouse
Assay Type	Sandwich ELISA
Suitable Sample Type	Cell culture supernatants from mice (<i>Mus musculus</i>). Can also be used in additional biological sample types reported in the literature reported in the literature, including serum, plasma, bronchoalveolar lavage fluid (BALF), intestinal tissue lysates, liver homogenates, and splenocyte culture supernatants, although minor protocol modifications may be required to optimize performance in different matrices
Sample Volume	100 ul
